Basic Estate Planning

We help individuals and families establish foundational estate planning documents to protect their wishes, loved ones, and assets. Our attorneys work closely with clients to ensure that plans are clear, legally sound, and tailored to personal and family needs.

Our services include:

- **Last Wills & Testaments**

Drafting clear and enforceable wills to direct the distribution of assets, name guardians for minor children, and appoint executors.

- **Revocable Living Trusts**

Establishing trusts to manage assets during lifetime, avoid probate, and simplify administration upon death or incapacity.

- **Powers of Attorney**

Designating trusted individuals to handle financial or legal matters in the event of incapacity.

- **Health Care Proxies & Living Wills**

Documenting medical preferences and appointing health care agents to make decisions in line with your values.

- **Beneficiary Designations Review**

Coordinating retirement accounts, life insurance, and other non-probate assets to align with your overall estate plan.
